"Our home building company has been banking with AbbyBank since 2020, and we've been very pleased with the experience. While we primarily bank at the Wausau branch, we appreciate the convenience of their other locations as well. The service is always helpful, and even though we may not be their largest customer, the staff treats us with respect and takes the time to remember us by name. Their construction loans and banking services have been excellent, providing the flexibility and support our business and our customers appreciate."
